HISTORY

I started Judo at the age of 7 with the Hamrun boys scouts under instructions of sense Godfry and Alex Bezzina. At the age of 9 I had to stop due to the fact that my family moved to Misida. when I was 15 I Started Judo at the Kamikwai under sensai Mario Juliano and hade to stop at 17. I met Mario Juliano when I was 26 of age and he asked me if I could help hem in running the Scorpion judo club being closer to were I levied, I agreed. and in 1989 I started to attend twice a week In 1990 Mario told me that he could no longer run the club and if I would like to take over I was scared at first but then I agreed

and with the help of Julian we started to run the club. In 1993 I had to move the club to a premises in Fgura but this was not adequate so I made arrangements and we were given permission to use the Fgura primary school. An opportunity arose with the help of Mr Envic Galea to have a large premises with the AS Hibernians I was also being assisted by Mr Mario Cardona at the time. We felt the need to split the sinners from the very jung students living Mario to take care of the sinners and I am taking care of the nursery. Now we have a fairly well organised dojo as should be.

A new problsm when the premises at the hibernins sport center was taken to be restored to its original look. It was dicaided that the name and administration of Hibernians Budokwai is to be kept by Mario. Wailst I was going to start a New club at Mriherl

The name of this club is KIN-SU DOJO which means "A NEW WIND"
